

## **Curriculum Vitae**

### **Theresia Candra – B. Eng, MSc**

Theresia, an Associate of Accord Solution Pte Ltd, has a Bachelor Degree in Civil Engineering and a Master of Science in Applied Economics and speaks Bahasa Indonesia, English and basic Japanese. Theresia is working on projects related to insurance claims, financial investigations, disputes and litigation.

### **Professional Experience**

Prior to joining the consulting industry, Theresia established and managed two start-up companies in Singapore. Her managerial responsibilities include operations, finance and business development. Theresia also developed a government tender business unit.

Representative examples of Theresia's engagement experience include:

- Assisted in development of a business interruption loss model for lost sales of a Malaysian textile manufacturer and exporter.
- Conducted searches for information and data on identified companies and individuals in due diligence investigations, including foreign language reviews and translations.
- Managed document collection and a scanning project in support of a large SIAC arbitration, including indexing scanned documents into a useable database tool.
- Interviewed client's management team to gather information on business operations and cost allocation methods.
- Worked with the investigations team based in the USA on a SIAC arbitration, acting as liaison with Singapore lawyers and ensuring queries and problems are dealt with smoothly and effectively. The overall task was to establish quantum of claim and support the accuracy and efficacy of documents and data.
- Developed project progress tracking tools to facilitate proper client communication and demonstrate project advancement.
